

The Second International Conference on Paediatric Acquired Brain Injury

Column 1	Hall 5
Column 2	Hall 6
Column 3	Hall 7
Column 4	Hall 8

WEDNESDAY, September 20, 2017 (Pre-Conference Courses)

11:00am-6:00pm	Early Registration (Historical Building – Floor 1 Corridor)			
8:30am-12:30pm	Tour of Bamino Gesù (Rehabilitation Center) <i>Ticket Required</i>			
10:00am-12:00pm	Audience with the Pope <i>Ticket Required</i>			
	Pre-Conference Courses - Afternoon			
1:00pm – 3:30pm	Neurological, Behavioural Assessment and Treatment of Children with Acquired Brain Lesions: from Disorders of Consciousness to School Re-entry Introduction: <i>TBD</i> Chair: <i>Sandra Strazzer</i> <i>Susanna Galbiati</i> <i>Monica Recla</i> <i>Valentina Manfredi</i> <i>Katia Colombo</i> <i>Loredana Stella</i>	Advanced Neuroimaging for Identification of Children at Risk Towards Sports Related Brain Injuries Introduction: <i>TBD</i> Chair: <i>Semyon Slobounov</i> <i>Keith Yeates</i> <i>Jolien Gooijers</i> <i>Kendra Jorgensen-Wagers</i> <i>Ludmila Zhavoronkova</i> <i>Giuseppe Lazzarino</i> <i>Thomas M. Talavage</i>	Neurodisability and Social Exclusion: a Need, and a Way, to Reduce Risk of Detention and Displacement of Young People with Brain Disorders Introduction: <i>TBD</i> Chair: <i>Huw Williams</i> <i>James Tonks</i> <i>Nathan Hughes</i>	Disorders of Muscle Tone in Children After Acquired Brain Injury: Diagnosis, Evaluation and Therapeutic Approaches Introduction: <i>TBD</i> Chair: <i>Chiara Veredice</i> <i>Gessica Della Bella</i> <i>Alessandro Capuano</i> <i>Francesca Meroni</i> <i>Flaminia Frascarelli</i> <i>Carlo Efsio Marras</i>
3:30pm – 3:45pm	Break (Historical Building – Outdoor Area)			
3:45pm – 6:00pm	Neurological, Behavioural Assessment and Treatment of Children with Acquired Brain Lesions: from Disorders of Consciousness to School Re-entry (Cont'd)	Advanced Neuroimaging for Identification of Children at Risk Towards Sports Related Brain Injuries (Cont'd)	Neurodisability and Social Exclusion: a Need, and a Way, to Reduce Risk of Detention and Displacement of Young People with Brain Disorders (Cont'd)	Disorders of Muscle Tone in Children After Acquired Brain Injury: Diagnosis, Evaluation and Therapeutic Approaches (Cont'd)

Column 1	Aula Magna
Column 2	Auditorium
Column 3	Aula Newman

THURSDAY, September 21, 2017

7:00am–6:00pm	Registration Open (Historical Building – Floor 1 Corridor)		
7:30am–8:20am	Light Breakfast (Historical Building – Outdoor Area)		
8:30am–9:30am	<p>Welcome (Aula Magna) <i>Enrico Castelli</i> (Italy), Chair <i>Lucia W. Braga</i> (Brazil), Co-Chair</p> <p>Official Opening of the Second International Conference on Paediatric Acquired Brain Injury <i>Carol Hawley</i> (UK), Chair of IPBIS Board <i>Mariella Enoc</i> (Italy), President, Bambino Gesù Children's Hospital <i>Beth Wicks</i> (UK), Co-Chair <i>Louise Blakeborough</i> (UK), Chapter Five</p> <p>Jane Gillett Award - Supported by Gluckstein Personal Injury Lawyers</p>		
9:30am–10:20am	<p>Keynote Introduction (Aula Magna) <i>Ronald C. Savage</i></p> <p>Keynote Lecture: The Power and Potency of Social Capital – An Antidote for Social Isolation <i>Al Condeluci</i></p>		
10:20am–10:50am	Break (Historical Building – Outdoor Area)		
11:00am–12:30pm	<p>Sports Concussion (ACCEPTED PAPERS 1) Moderator: <i>Ronald C. Savage</i></p> <p>91 - Automatic Classification of Adolescents with Sports Related Concussion <i>Naznin Virji-Babul</i></p> <p>160 - Heart Rate Variability following Youth Concussion: How do Autonomic Regulation and Concussion Symptoms Differ Over Time Post Injury? <i>Melissa Paniccia</i></p> <p>173 - From Paper to Practice - Developing and Implementing Sports Injury Prevention Interventions That Make a Difference - A Citywide Concussion Program for Youth Sport Athletes <i>Katherine Snedaker</i></p> <p>188 - Brain Deformation of Youth Athletes During Subconcussive Head Impact <i>Joel Stitzel</i></p>	<p>Clinical Outcome Measurements I (ACCEPTED PAPERS 2) Moderator: <i>Peter de Koning</i></p> <p>21 - Educational Outcome, Participation, Health-Related Quality of Life, and Multidimensional Fatigue Following Childhood Severe Traumatic Brain Injury: Results of A Prospective Longitudinal Study: The Seven-Year Follow-Up of the TGE Cohort <i>Mathilde Chevignard</i></p> <p>33 - A Paediatric Rehabilitation Ingredients Measure (PRISM) For Use in Studies of Severity-Adjusted Outcome and Rehabilitation Treatment Received <i>Rob Forsyth</i></p> <p>61 - Use of the Canadian Occupational Performance Measure (COPM) to Document Patient and Family Centered Outcomes in Children with Traumatic Brain Injury Admitted to an Intensive Day Rehabilitation Program <i>Melissa Trovato</i></p>	<p>Rehabilitation: Educational, Medical (ACCEPTED PAPERS 3) Moderator: <i>Peter Patrick</i></p> <p>72 - Web-Based Interventions for Pediatric Brain Injury: Lessons Learned From 3 Randomized Control Trials <i>Ann Glang</i></p> <p>76 - Proactive Intervention in The Return to School Process After Childhood Brain Injury: An Innovative, Inter-Agency Pathway <i>Emily Bennett</i></p> <p>139 - From Pump-Priming to Permanent Provision: An Effective, Cost-Efficient Model of Paediatric Neurorehabilitation for the NHS <i>Emily Bennett</i></p> <p>185 - Addressing Similarities and Differences in the Pediatric TBI and CNS Brain Tumor Population in the Educational Setting <i>Sharon Grandinette</i></p> <p>191 - Bridging the Gap for School Re-Entry Following Rehabilitation for Brain and Spinal Cord Injury and Disease <i>Jacqueline Tudball</i></p>

	<p>190 - Transcranial Doppler Should Be the Gold Standard for Diagnosing Concussion and Tracking Recovery: A Prospective TCD Young Collegiate Athlete Study Showing Impairment of Cerebrovascular Reactivity After Stated Resolution of Concussion Symptoms <i>Tonia Sabo</i></p> <p>209 - A New Submaximal Graded Cycle Ergometer Test for Assessing Recovery from Concussion in Children and Adolescents <i>Phil Fait</i></p> <p>189 - Evaluation of Cognitive Recovery after Sports-Related Concussion in High School Athletes Using fMRI of Working Memory <i>Brenna McDonald</i></p> <p>232 - Corpus Callosum Abnormalities on Diffusion Tensor Imaging One Month after Sports-Related Concussion in High School Athletes and Relation to Brain Function <i>Brenna McDonald</i></p>	<p>80 - International Survey on Diagnostic and Prognostic Procedures in Pediatric Disorders of Consciousness <i>Erika Molteni</i></p> <p>98 - Memory for Autobiographical Events Following Severe Paediatric Traumatic Brain Injury: A Case of Selective Deficits That Gradually Emerge from Childhood into Adolescence <i>Suncica Lah</i></p> <p>140 - KidsBrainIT: Using Information Technology to Improve Childhood Brain Trauma Intensive-Care Management, Patient Safety and Outcome <i>Tsz-Yan Milly Lo</i></p> <p>237 - Computational Simulation of Impact - Induced Traumatic Brain Injury in Adults and Children <i>Mariusz Ziejewski</i></p>	<p>200 - Long-Term Participation and Family Impact After Acquired Brain Injury (ABI) in Children and Youth: Design and First Results of a Dutch Multi-Center Study <i>Arend De Kloet</i></p> <p>230 - Educational Level and Vocational Situation of Pediatric TBI Patients 18–25 Years After Severe Trauma and Inpatient Rehabilitation – Data from a Two-Stage Follow-Up Study <i>Barbara Benz</i></p>
12:30pm–1:15pm	Posters & Exhibits Session 1 (Hall 1/Floor 1 Corridor)		
1:15pm–2:00pm	Lunch (Historical Building – Outdoor Area)		
2:00pm–3:30pm	<p>Vulnerability or Sparing? The Impact of Developmental Stage at TBI on Longitudinal Cognitive, Psychosocial, and Neuroimaging Outcomes (SYMPOSIUM 1) Chair: <i>Linda Ewing-Cobbs</i> Moderator: <i>Mark Linden</i></p> <p><i>Heather T. Keenan</i> <i>Elisabeth Wilde</i> <i>Christopher Giza</i></p>	<p>What About the Little Ones? Assessment and Outcomes of Early Childhood TBI (SYMPOSIUM 2) Chairs: <i>Isabelle Gagnon, Miriam Beauchamp</i> Moderator: <i>Vicki Anderson</i></p> <p><i>Isabelle Gagnon</i> <i>Miriam Beauchamp</i> <i>Shari Wade</i> <i>Audrey McKinlay</i></p>	<p>Innovative Technologies and Dynamic Solution for Gait Recovery in Children with Acquired Brain Injury (SYMPOSIUM 3) Chair: <i>Maurizio Petrarca</i> Moderator: <i>Enrico Castelli</i></p> <p><i>Elena Beretta</i> <i>Daniele Panzeri</i> <i>Erika Molteni</i></p>
3:30pm – 4:00pm	Break (Historical Building – Outdoor Area)		
4:00pm - 5:30pm	<p>Mild Brain Injury I (ACCEPTED PAPERS 4) Moderator: <i>Rob Forsyth</i></p> <p>11 - Pediatric Concussion Evaluation in Europe: Military Medical Providers Leading the Way <i>Kendra Jorgensen-Wagers</i></p> <p>16 - Long Term Outcome Following Mild Traumatic Brain Injury in Children <i>Jennie Louise Ponsford</i></p> <p>24 - Physical Activity, Fatigue and Sleep Disorders After Mild Brain Injury and Orthopedic Injury in Adolescents and Young Adults <i>Frederike Van Markus-Doornbosch</i></p>	<p>Functional Outcome Measurements I (ACCEPTED PAPERS 5) Moderator: <i>Katherine Snedaker</i></p> <p>35 - Clinical Features of Young Children with Disorders of Consciousness <i>Beth Slomine</i></p> <p>66 - Performance of Typically Developing Very Young Children on Coma Recovery Scale-Pediatric <i>Beth Slomine</i></p> <p>36 - Recovery of Functional Capacity and Performance Following Pediatric Brain Injury During Sub-Acute Rehabilitation: Growth Curve Analysis <i>Sharon Barak</i></p>	<p>Clinical Outcome Measurements II (ACCEPTED PAPERS 6) Moderator: <i>Arend de Kloet</i></p> <p>150 - Language Outcome Following Childhood Stroke: Effect of Age at Stroke Onset and Stroke Hemispheric Lateralisation <i>Camille De Montferrand</i></p> <p>154 - Outcome of Children after Traumatic Brain Injury - First Results of the CREATKIDS Study (On Behalf of the CREATIVE Consortium) <i>Joanne Fleming</i></p> <p>179 - EEG and Cortical P300 ERP Fast Technique to Evaluate TBI Brain Physiology Pre and Post Intervention. Event Related Potentials are Easily Quantified with Modern Computer Processing <i>Frank Palermo</i></p>

	<p>53 - Continued Improvements in Children's Executive Functioning Four Years After Mild TBI in Childhood: Findings from the BIONIC Study <i>Nicola Starkey</i></p> <p>60 - Follow-Up Issues in Children with Mild Traumatic Brain Injuries <i>Gloria Fritsch</i></p> <p>77 - Management of Mild TBI in Children: Ambulatory or Inpatient Management. A Single Institutional Experience <i>Markus Lehner</i></p> <p>120 - Postconcussive Symptoms and Its Predictors in Children and Adolescents Up to Six Months After Mild Traumatic Brain Injury <i>Irene Renaud</i></p>	<p>56 - Brain Injury in Children and Young People: Does A Holistic, Multidisciplinary Approach Lead to Refocused Expectations and Hence Equitable Outcomes? <i>Amit Bali</i></p> <p>64 - Rehabilitation Outcomes for Severe Childhood Stroke <i>Gemma Kelly</i></p> <p>65 - Predicting Goal Attainment for Children and Young People with Acquired Brain Injuries in Residential Rehabilitation: Do Therapists Get It Right? <i>Gemma Kelly</i></p> <p>79 - Assessment of Executive Functions in Children and Adolescents with ABI Using a Novel Complex Multi-Tasking Computerized Task – the Jansari Assessment of Executive Functions (JEF-C©) <i>Mathilde Chevignard</i></p> <p>127 - Long-Term Health Outcomes Associated with Traumatic Brain Injury in Childhood and Adolescence: An Italian Retrospective Study <i>Francesca Chiavaroli</i></p> <p>133 - Fatigue: It's Course and Predictors 6-12 Months After Child Brain Injury <i>Ali Crichton</i></p>	<p>180 - Reactivity of Stress Response Systems and Post-Traumatic Stress after Pediatric Injury: Impact of Age and Type of Injury <i>Linda Ewing-Cobbs</i></p> <p>184 - Validating the Reliability of the KOSCHI on a Prospective Basis in Inpatient Rehabilitation Program <i>Peter Rumney</i></p> <p>187 - Treatment and Identification of Intracranial Hypertension (Pseudotumor Cerebri) in Pediatric Patients with Predominant Headache Subtype Post Concussion Syndrome Improves Outcomes and Reduces Disability <i>Tonia Sabo</i></p> <p>198 - Clival Fractures in Children: Diagnostic Option Within the Emergency Room Setting <i>Julian Fromm</i></p> <p>225 - Cortical Thickness, Brain Volume Changes and Neurocognitive Function in Children with Diffuse Axonal Lesions <i>Catharine Vander Linden</i></p>
5:30pm-6:20pm	<p style="text-align: center;">Keynote Introduction (Aula Magna) <i>Carol Hawley</i></p> <p style="text-align: center;">Keynote Lecture: Brain Injury Due to Childhood Brain Tumours: What Are the Causes, The Effects and How Can It Be Rehabilitated but More Importantly, Prevented? <i>David Walker</i></p>		
6:30pm – 8:00pm	<p style="text-align: center;">Welcome Reception (Historical Building – Outdoor Area)</p>		

Column 1	Aula Magna
Column 2	Auditorium
Column 3	Aula Newman

FRIDAY, September 22, 2017

7:00am–6:00pm	Registration Open (Historical Building – Floor 1 Corridor)		
7:00am–7:35am	Light Breakfast (Historical Building – Outdoor Area)		
7:45am–8:50am	<p>Concussion in Children and Youth in 2017: A Review of Current Guidelines and Research Findings and Their Relevance to Clinical Practice (SYMPOSIUM 4) Chair: <i>Vicki Anderson</i> Moderator: <i>Peter Patrick</i></p> <p><i>Audrey McKinlay</i> <i>Ali Crichton</i> <i>Silvia Bressan</i> <i>Keith Yeates</i></p>	<p>Innovative Pathways for Children and Youth with Acquired Brain Injury in Four European Countries (SYMPOSIUM 5) Chairs: <i>Eric Hermans, Catherine Aaro Jonsson</i> Moderator: <i>Carol Hawley</i></p> <p><i>Gertrud Wietholt</i> <i>Michael Radix</i> <i>Mathilde Chevignard</i> <i>Peter de Koning</i></p>	<p>Improving Postural Control in Early Rehabilitative Treatment of Children with Acquired Brain Injury (SYMPOSIUM 6) Chair: <i>Massimo Stortini</i> Moderator: <i>Peter Rumney</i></p> <p><i>Guerrino Rosellini</i> <i>Giuseppe D'Aniello</i> <i>Soffiani Valentina</i></p>
8:50am–9:00am	Break (Historical Building – Outdoor Area)		
9:00am–9:50am	<p>Keynote Introduction (Aula Magna) <i>Lucia W. Braga</i></p> <p>Keynote Lecture: Psychological Care of Children and Youth with Acquired Brain Injuries <i>George Prigatano</i></p>		
10:00am–10:50am	<p>Crime and Traumatic Brain Injury: Causal Links and Interventions (SYMPOSIUM 7) Chair: <i>Huw Williams</i> Moderator: <i>Ronald C. Savage</i></p> <p><i>Nathan Hughes</i> <i>James Tonks</i> <i>Mark Linden</i></p>	<p>Identifying Needs for Children and Adolescents with Traumatic Brain Injury....How Do We Manage the Gaps? (SYMPOSIUM 8) Chair: <i>Christine MacDonell</i> Moderator: <i>Audrey McKinlay</i></p> <p><i>Adriaan Theeuwes</i> <i>Carole Chantler</i> <i>Francisco Angulo Parker</i></p>	<p>Multidisciplinary Management of Bladder and Bowel Dysfunctions in Children and Adolescents with Pediatric Acquired Brain Injury (SYMPOSIUM 9) Chair: <i>Giovanni Mosiello</i> Moderator: <i>Ingela Kristiansen</i></p> <p><i>Costanza Candeloro</i> <i>Maria Luisa Capitanucci</i> <i>Claudio Cini</i></p>
11:00am–11:15am	Break (Historical Building – Outdoor Area)		
11:15am–12:30pm	<p>Mild Brain Injury II (ACCEPTED PAPERS 7) Moderator: <i>Vicki Anderson</i></p> <p>125 - The Micro-Structure of Cerebral Bridging Veins in Younger Patients – Data to Improve Head Injury Protection <i>Gracia Musigazi</i></p> <p>165 - Longitudinal Assessment of Cortical Excitability in Paediatric Traumatic Brain Injury <i>Regan King</i></p>	<p>Rehabilitation: Social and Behavioural (ACCEPTED PAPERS 8) Moderator: <i>Jennie Louise Ponsford</i></p> <p>25 - Peer Event Initiative Developed to Address Social Interaction and Integration during Acute Neurorehabilitation following Acquired Brain Injury <i>Miranda Loveday</i></p> <p>62 - EEG Connectivity During Dual-Tasking as a Diagnostic and Rehabilitation Tool in Traumatic Brain Injury Patients <i>Ludmila Zhavoronkova</i></p>	<p>Functional Outcome Measurements II (ACCEPTED PAPERS 9) Moderator: <i>Mark Linden</i></p> <p>152 - Longitudinal Changes in Adaptive Functioning Following Preschool Mild Traumatic Brain Injury: Growth Curve Analyses <i>Fanny Dégeilh</i></p> <p>153 - A New Comprehensive Tool-box for Assessment of Children's Outcome After Pediatric ICU Admission due to Traumatic Brain Injury</p>

	<p>177 - Measurement of the Tentorium Cerebelli and Sleep Problems in Pediatric Mild Traumatic Brain Injury <i>Zahra Ofoghi</i></p> <p>178 - An Investigation into Social Functioning Following Mild TBI In Early Childhood: The Quality of Parent-Child Interactions <i>Gabrielle Lalonde</i></p> <p>193 - Comparing Postural Stability After Sport-Related and Non Sport-Related Concussion: Do We Need to Make a Distinction? <i>Eda Cinar</i></p>	<p>83 - Social Participation AND Navigation (SPAN): Pilot Test of An App-Based Coaching Intervention with Teenagers with Acquired Brain Injuries <i>Gary Bedell</i></p> <p>130 - Implementing Group Based Parenting Interventions for Child Behaviours in Paediatric Rehabilitation Setting <i>Ali Crichton</i></p> <p>170 - Next-Generation Interactive Devices in Neurorehabilitation of Social Skills in Children with Acquired Brain Injury <i>Marianne Saard</i></p> <p>220 - Structured Model of Neurorehabilitation of Social Skills Deficit Using Modern Multi-User Technology <i>Marianne Saard</i></p> <p>216 - Use of Mental Health Services by Adolescents After Traumatic Brain Injury: Findings from a Randomized Controlled Trial <i>Andrea Huebner</i></p>	<p>(On Behalf of the CREATIVE Consortium) <i>Joanne Fleming</i></p> <p>210 - Recovery of Functional Walking Capacity in Children After Brain Injury <i>Sharon Barak</i></p> <p>229 - Dissociated Alterations of Self-Body Schema and Others' Body Holistic Perception in Children with Supratentorial and Infratentorial Tumor <i>Cosimo Urgesi</i></p> <p>238 - Improvement Rate of Patients with Severe Brain Injury During Post-Acute Intensive Rehabilitation: A Comparison Between Pediatric (Under 18 Years) and Adult Population <i>Rita Formisano</i></p>
12:30pm-1:15pm	Posters & Exhibits Session 2 (Hall 1/Floor 1 Corridor)		
1:15pm-2:00pm	Lunch (Historical Building – Outdoor Area)		
2:00pm-2:50pm	<p>Keynote Introduction (Aula Magna) <i>Enrico Castelli</i></p> <p>Keynote Lecture: Long-Term Neurocognitive Outcome in Children with Acquired Brain Injuries <i>Daria Riva</i></p>		
3:00pm-4:15pm	<p>Evidenced Based Assessment and Treatment of Children with mTBI and Adolescents with Mild Traumatic Brain Injury (SYMPOSIUM 10) Chair: <i>Barry Willer</i> Moderator: <i>Lucia W. Braga</i></p> <p><i>Gerard Gioia</i> <i>John Leddy</i> <i>Christina Master</i> <i>Shari Wade</i></p>	<p>The Neuroscience and Neuropsychology of Social Impairment After Child Acquired Brain Injury (SYMPOSIUM 11) Chair: <i>Vicki Anderson</i> Moderator: <i>Catherine Aaro Jonsson</i></p> <p><i>Miriam Beauchamp</i> <i>Keith Yeates</i></p>	<p>Supporting Educators in Working with Children with Acquired Brain Injury (ABI) (SYMPOSIUM 12) Chair: <i>Mark Linden</i> Moderator: <i>Beth Wicks</i></p> <p><i>Audrey McKinlay</i> <i>Ann Glang</i> <i>Carol Hawley</i> <i>Alison Madden</i> <i>Ivana Fortino</i></p>
4:15pm - 4:45pm	Break (Historical Building – Outdoor Area)		
4:45pm - 6:00pm	<p>Family Supports/Interventions, Transitions (ACCEPTED PAPERS 10) Moderator: <i>Eric Hermans</i></p> <p>15 - Bridging the Gap - Facilitating Transition of Adolescents with Acquired Brain Injury to Adult Services <i>Jasmine Xavier</i></p>	<p>Life-long Issues, Rehabilitation: Cognitive I (ACCEPTED PAPERS 11) Moderator: <i>Alison Madden</i></p> <p>1 - Applying a Three-Part Approach to Cognitive Retraining in Concussion Management: Symptom Management, Patient/Caregiver Education, Cognitive Endurance Building <i>Mary Ann Williams-Butler</i></p>	<p>Epidemiology, Legal: Litigation Issues, Prevention (ACCEPTED PAPERS 12) Moderator: <i>Ingela Kristiansen</i></p> <p>22 - Painting A Picture of Possible Clinical Pathways to Address the Diversity of Needs Following Acquired Brain Injury in Children <i>Gillian Shrivat</i></p>

	<p>30 - Rearrange Your Brain - A Cognitive Behavioural Strategy for Siblings and Friends <i>Lisa Turan</i></p> <p>32 - Family Forward: A Social Work Clinical Trial Promoting Family Adaptation Following Paediatric Acquired Brain Injury <i>Lyndal Hickey</i></p> <p>85 - A Family Intervention Designed by Families: Developing an Online Problem-Solving Intervention for Children (9-12 Years) Who Have Survived a Brain Injury <i>Anna Adlam</i></p> <p>103 - Can We Make It Seamless: The Transition Process of Paediatric Rehabilitation Patients from An Acute Setting to A Non-Acute Residential Rehabilitation Unit <i>Rebecca Sugden</i></p> <p>161 - Evaluation of an Allied Health Professional Led Clinic in Acquired Brain Injury <i>Jill Massey</i></p>	<p>18 - Cognitive Recovery in Children with Traumatic Brain Injury: Longitudinal Study <i>Ekaterina Fufaeva</i></p> <p>26 - Applying Emerging Evidence to the Assessment and Management of Cognitive Deficit following Acquired Brain Injury as Illustrated by a Child's Journey through Rehabilitation <i>Tamsin Jones</i></p> <p>89 - 30 Year Outcomes after Severe Traumatic Brain Injury in a Pediatric Population <i>Kathleen Vonderhaar</i></p> <p>96 - Skill Learning Following Severe Traumatic Brain Injury is Associated with Child's Phase of Recovery: Preliminary Findings <i>Tamar Silberg</i></p> <p>123 - Preliminary Data on the Efficacy of a Home-Based Computerized Cognitive Training in Pediatric Patients with Brain Injury: A Comparison Between Patients with Traumatic Brain Injury and Brain Tumor <i>Alessandra Bardoni</i></p> <p>124 - Remote Cognitive Training for Italian Pediatric Patients with Brain Injury: A Feasibility Study <i>Claudia Corti</i></p> <p>148 - Factors for Consideration in Establishing Life Span Service Use for Children with Brain Injuries <i>Barbara Baptiste</i></p> <p>156 - Evolution of a Pediatric NeuroRehabilitation Program: Drivers of Change in 28 years of Clinical Practice <i>Elaine Ledwon-Robinson</i></p>	<p>58 - Epidemiology of Traumatic Brain Injury in Children in Russia <i>Svetlana Valiullina</i></p> <p>68 - Incidence and Mortality of Moderate and Severe Traumatic Brain Injury in Children: A Prospective Population-Based Cohort Study in Norway <i>Mari Olsen</i></p> <p>119 - Minefields or Meadows? Current Issues in Cross Border Litigation and How to Choose the Right Path <i>Susan Rodway QC</i></p> <p>145 - What Constitutes Legally Admissible Evidence to Support Youth Sports Brain Injuries? <i>Uzma Samadani</i></p> <p>149 - Natural Progression of Recovery from Concussion in a Pediatric Population <i>Andrée-Anne Ledoux</i></p> <p>201 - Association Between Metoclopramide Treatment in the ED and Post-Concussion Headache <i>Roger Zemek</i></p>
7:30pm – 10:30pm	<p>Gala Dinner Palazzo Colonna (Ticket Required; Transportation on Your Own)</p>		

Column 1	Aula Magna
Column 2	Auditorium
Column 3	Aula Newman

SATURDAY, September 23, 2017

7:00am–1:00pm	Registration Open (Historical Building – Floor 1 Corridor)		
7:30am–8:45am	Light Breakfast (Historical Building – Outdoor Area)		
9:00am–10:15am	<p>Mild Brain Injury III (ACCEPTED PAPERS 13) Moderator: <i>Mathilde Chevignard</i></p> <p>192 - Age-at-Injury Effects on Socialization and Emotion Regulation <i>Dawn Good</i></p> <p>208 - Age-at-Injury Effects on Long-term Cognitive Outcomes: Examining the Moderating Role of Early Medical Intervention <i>Dawn Good</i></p> <p>207 - Pediatric Concussion Outcome Priorities from Patient, Parent and Educator Perspectives: A Qualitative Study <i>Anne Grool</i></p> <p>214 - The Assessment of Oculomotor and Visual Task-Related Brain Activity After Concussion Using Functional Near Infrared Spectroscopy (fNIRS) <i>Christina Master</i></p> <p>215 - Abnormal Accommodative Amplitude is Associated with Prolonged Concussion Recovery in Children <i>Christina Master</i></p>	<p>Rehabilitation: Cognitive II (ACCEPTED PAPERS 14) Moderator: <i>Ann Glang</i></p> <p>132 - Clinical Implementation of Manualised Everyday Memory Group Training for Children <i>Ali Crichton</i></p> <p>158 - The Changing Focus of Post-Treatment Neuropsychological Care After Childhood Brain Tumour: A Move Away from the Medical Model <i>Emily Talbot</i></p> <p>186 - Real Live Escape the Room Tasks in the Rehabilitation Hospital to Teach Executive Function Skills <i>Lynette Holmes</i></p> <p>234 - Making Sense of Adolescents: Cognitive and Behavioural Functions in Adolescents after TBI <i>Jamuna Rajeswaran</i></p>	<p>Non-traumatic Brain Injury, Non-accidental Injury (ACCEPTED PAPERS 15) Moderator: <i>Sharon Grandinette</i></p> <p>49 - The Childhood Stroke Clinical Guideline - Using an Evidence Based Collaborative Approach <i>Anne Gordon</i></p> <p>95 - Diagnostic Criteria of Shaking: A Crucial Advance into Knowledge on the SBS <i>Anne Laurent-Vannier</i></p> <p>203 - The Clinical Course of Children Younger than 3 Years of Age with anti-N-methyl-D-aspartate Receptor Encephalitis <i>Sarah Risen</i></p>
10:20am–11:20am	<p>Long Term Outcomes of Traumatic Brain Injury in Children (SYMPOSIUM 13) Chair: <i>Audrey McKinlay</i> Moderator: <i>Eric Hermans</i></p> <p><i>Vicki Anderson</i> <i>Nicola Starkey</i> <i>Mark Linden</i></p>	<p>International Perspectives on Family Needs After Pediatric ABI (SYMPOSIUM 14) Chair: <i>Caron Gan</i> Moderator: <i>Alison Madden</i></p> <p><i>Ingrid van't Hooft</i> <i>Audrone Prasauskiene</i> <i>Naomi Brookes</i></p>	<p>Multidisciplinary Rehabilitation in Children with Brain Tumors: Bambino Gesù Children's Hospital Experience (SYMPOSIUM 15) Chair: <i>Susanna Staccioli</i> Moderator: <i>Peter de Koning</i></p> <p><i>Emanuela Tavernese</i> <i>Simone Gazzellini</i> <i>Carla Ferrante</i></p>
11:30am–11:45am	Top Scoring Abstracts and Poster Awards (Aula Magna)		
11:45am–12:30pm	<p>Keynote Introduction: <i>Beth Wicks</i></p> <p>Keynote Lecture: Think Positive! Focusing on Wellness Rather Than Weakness After Pediatric Brain Injury <i>Miriam Beauchamp</i></p>		
12:30pm–12:45pm	<p>Closing Comments (Aula Magna) <i>Beth Wicks</i> (UK), Co-Chair & <i>Enrico Castelli</i> (Italy), Chair</p> <p>SCIENTIFIC SESSIONS CONCLUDE</p>
