# International Brain Injury Association

---

The International Brain Injury Association (IBIA) is the global nexus for brain injury communication and exchange.

Through conferences, symposia, academic publications and web-based platforms, IBIA provides **unparalleled access** to multidisciplinary brain injury professionals in North America and around the world.

IBIA welcomes the partnership of industry, foundations, institutions and other organizations interested in improving outcomes for patients with brain injury.

---

Under the IBIA umbrella are the world's leading professional initiatives for brain injury professionals.

# Brain Injury Professional Magazine

Co-Editor in Chief: [Nathan Zasler](#)

Co-Editor in Chief: [Beth Slomine](#)

Brain Injury Professional (BIP) is an open access resource for the entire spectrum of subspecialties involved in the scientific research and clinical care of acquired brain injury. BIP is designed to appeal to a broad, multidisciplinary audience of brain injury professionals throughout the world.

Each quarterly issue focuses upon a specific topic and includes original articles, expert interviews, resource sidebars, a literature and product reviews as well as regular departments covering websites of interest, new technology, nonprofit news, legislative updates, and upcoming conferences and events.

BIP is the official publication of IBIA and its affiliates, and has the largest circulation of any publication on the subject of brain injury.
